

### Commercial glueboard insect control

The D-Light™ range provides a hygienic solution to insect control for sensitive areas such as food preparation areas. The stylish and effective D-Light Discreet™ is ideal for front of house applications, whilst the D-Light Commercial™ is a 45W high light output unit with service friendly features. Both units utilise a common glueboard and tubes, reducing inventory levels and simplifying servicing. Developed with highly effective features, both D-Light™ units are designed for use with genuine GLUPAC™ pheromone impregnated glueboards, which incorporate UV stable dry glue for longer life and an increased catch.

### Common features

#### Common tube and glueboard

Simple service and inventory requirements

#### High efficacy UV tubes

Proven to be more effective and longer lasting than standard UV tubes

#### Innovative glueboard technology

Designed for use with GLUPAC™ pheromone impregnated glueboards with UV stabiliser

#### Robust construction

All metal construction

#### Independent certification

Independently tested and certified to RoHS and relevant European standards

### D-Light Discreet™

#### Proven effectiveness

Improved catch against traditional decorative units

#### Unique integrated cable tidy for simple installation

Tidies away any unused length of the mains cable

#### Highly UV reflective aluminium reflector

Reflects more of the UV light forward for an improved attractancy

#### Complete peace of mind

Two year guarantee (excluding tubes)

### D-Light Commercial™

#### 45W high UV light output

Increases the light output for improved attractancy

#### Quick and simple servicing

Simple glueboard replacement without removing the protective guard

#### Deep insect catch tray

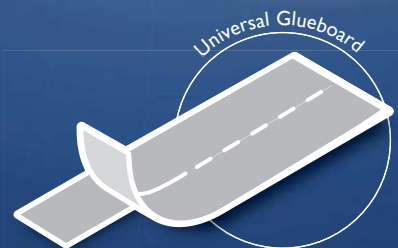

Added security of large catch tray for dried caught flying insects

#### Complete peace of mind

Three year guarantee (excluding tubes)
